

To Sky Lite Inc,

Thank you for installing and providing us with new LED lights in our Holiday Inn facility. I really love how the new LED lights are brighter and whiter than before. In my opinion, I believe that the LED lights are better than the halogen and incandescent lights. We have changed the LED lights to MR16 bulbs, A19 bulbs, Candle Lights and 2x4 Flat Panels. All the new fixtures and lighting makes our hotel more cozy and comfortable to book in after a long day of work, vacation, or any other leisure.

The most important part of switching to the new LED lights is saving on the electric bill. I saved almost at least 35% on my electric bill which I am very satisfied about. We also had the parking lot lights to be changed to brighter LED lights to make the parking lot shine bright and white during the night time. The installation was done in about 2 days and I really love how the service was outstanding and satisfying. Our facility has been getting compliments about our new LED lights by our customers and all our employees loves the lighting also.

Thank you once again and I would love to have you install more of the LED lights in our Holiday Inn chains all across New York and America.

Sincerely,
